

TECHNICAL DATA SHEET

92140-FK144 (045)

Aerospace textile glass: 92140-FK144. Medium weight twill weave glass fibre fabric treated with FK144 finish.

FK144. A multifunctional finish which has a high-performance silane cross-linking adhesion promoter combined with the softening and anti-static benefits of Volan. Good performance over a wide range of resin systems and applications. Effective with a variety of thermosetting resin systems such as phenolic, epoxy, polyester and vinyl ester.

The combination of flexible twill weave and soft, multifunctional finish makes this a product suited to both large and small scale hand-layup work where good fabric manageability is required.
